

**Go as far as you can see  
and you will see further.**

Zig Ziglar

**When you think of your goals and dreams, how far can you see?**

**You might have a big dream that you can see the whole way to end. But more than likely, you have a goal that you can only see to the end of the goal.**

**Imagine it like walking up a long hill. You can see to the top of hill and you might think you're done. You have a great sense of accomplishment. But now that you're at the top of hill, you see an even greater dream. There is so much more ahead of you that you never even thought about before.**

**As you move forward on your goals and dreams, go as far as you can see. There will always be more to see along the way.**

*Put your hand on your heart and say:*  
**I choose to go for it.**
