

Some people have thousands of reasons why they cannot do what they want to, when all they need is one reason why they can.

Willis Whitney

Sometimes it is easier to see why something won't work or what is getting in the way of what you want. You could come up with a long list of who or what is to blame for your situation. You could list the many things that are not working.

There might be many ways for you to get what you want or to solve the problem. You only need to find one.

Persistency of problem solving will lead to your success. The only way to fail is to stop looking for the solution. The answer is out there. You only need to find it. You can't find it if you stop trying.

You can make it happen. You can find the one reason.

Put your hand on your heart and say:

I choose to be persistent.
